Attitudes of Sports Sciences Students in Mu'tah University Towards School Practical Training Program

*Ahmd Bani Ata and "Zain alabedin" M. Ali Bani Hani**

ABSTRACT

The purpors of this investigation was to study the attitudes of sports sciences students in Mu'tah University towards school practical training and to study the different of such attitudes between males and females and quality grade Average (QPA).

This investigation used the descriptive approach to study the research problem Questionnaire was used to collect the date using four aspects of the problem totaling (29) paragraphs. The aspects of the problem included the supervision of student practical training the school teacher, the school principle, the school facilities.

The study sample included (96) students of the faculty of sports sciences of Mu'tah university (53-mules, 43= females).

The result of the study showed that the attitudes of the students sample was average the except for the facility aspect which seemed to be low, there was no significant differences in the attitudes between males and females for the gender, QPA among the students.

Keywords: Practical Training Program, Gender, QPA.
