JORDAN JOURNAL OF PHARMACEUTICAL SCIENCES

**A RESEARCH INTERNATIONAL SPECIALIZED REFEREED JOURNAL
ISSUED BY: SCIENTIFIC RESEARCH SUPPORT FUND AND THE UNIVERSITY OF JORDAN**

INSTRUCTIONS TO AUTHORS

Scopes:

Jordan Journal of Pharmaceutical Sciences (JJPS) is a scientific peer-reviewed publication that focuses on current topics of interest in pharmaceutical sciences.

Preparation and Submission of Manuscripts

JJPS is a peer-reviewed Journal. It has been approved by the Higher Scientific Research Committee in the Ministry of Higher Education and Scientific Research. *JJPS* is a tri-annual publication, funded by Scientific Research Support Fund published by the Deanship of Academic Research and Quality Assurance - The University of Jordan. *JJPS* will be a continuation of Dirasat.

Type of Manuscripts

JJPS publishes research articles, research reports, technical notes, scientific commentaries, news, and views.

Review Articles are only submitted to JJPS upon a request from the Editorial Board.

Scientific notes can also be submitted to JJPS according to following criteria:

1. Maximum of 1500 words.
2. Tables, figures: maximum of two.
3. References: maximum of 15 references

Manuscript Preparation

The research paper should be typed on the computer; double spaced between lines, and shouldn't exceed 20 pages (5000 words, font size 13). Spelling, punctuation, sentence structure, spacing, length, and consistency in form and descriptions should be checked before submission. References should also be checked for accuracy. Ensure that all figures and tables are mentioned in the text, and that all references are cited in the text.

Title Page

The title should appear on a separate page and should be followed by the author(s) name(s) and the institution name and address. The title, author(s) name(s), and affiliations should all appear on their own respective line of text. Place an asterisk after the name of the author to whom enquiries regarding the paper should be directed and include that author's telephone and fax numbers and e-mail address. Author(s) affiliation(s) must be mentioned for each one in order.

Abstract

Authors should submit with their research two abstracts, one in English and it should be typed at the beginning of the paper followed by the keywords before the introduction.

The abstract, detailing in one paragraph the problem, experimental approach, major findings, and conclusions, should appear on the second page. It should be double spaced and should not exceed 200 words for **Full Papers and Reviews or 100 words for Notes and Rapid Communications**.

Compounds mentioned in the abstract, given as specific Arabic numbers in the text, should also be accompanied in the abstract by that same numeral. The abstract should appear on a separate page and should be untitled.

The other abstract in Arabic (Required only for Arab native speakers) should be typed at the end of the paper on a separate sheet, including author(s) name(s) and affiliation(s).

Keywords

Should be included at the end of the abstract page, not exceeding 7 words both in Arabic and in English.

Introduction

The manuscript should include an untitled introduction stating the purpose of the investigation and relating the manuscript to similar researches.

Results and Discussion

The results should be presented concisely. Tables and figures should be designed to maximize the presentation and comprehension of the experimental data. The discussion should interpret the results and relate them to existing knowledge in the field in a clear and brief fashion as possible. Authors submitting a manuscript as a Note should omit the heading Results and Discussion. For Full Papers of unusual length, subheadings may be included within the Results and Discussion section.

Bolded structural code numbers should only be used for new compounds and for those known compounds for which new biological data or spectroscopic values are being reported. Other known compounds should be referred to in the text by name, wherever necessary.

Experimental Section

The presentation of specific details about instruments used, sources of specialized chemicals and related experimental details should be incorporated into the text of the Experimental Section as a paragraph headed General Experimental.

Acknowledgments

The Acknowledgments section should include credits [initial(s) and last name(s)] for technical assistance, financial support, and other appropriate recognition.

References and Notes

References to the literature and all notes, regardless of their nature, should be numbered in order of appearance in the manuscript, and then cited under the heading References and Notes with superscript numbers. Each reference may have its own citation number, then should be assigned its own number in this section. References and notes should follow the format shown:

Journal

Taha M., Al-Bakri A. and Zalloum W. Discovery of potent inhibitors of pseudomonal quorum sensing via pharmacophore modeling and silico screening. *Bioorg. Med. Chem. Lett.* 2006; 16:5902-5906.

Book

Chemical or Biological Abstract

Al-Hiari Y., Qaisi A., El-Abadelah M. and Wolfgamg V., *Monatshefte fuer Chemei.* 2006; 137(2) 243-248, *Chem. Abstr.* 2007; 145, 397308.

Ph.D. or M. Sc. Thesis

Alkhalil S. The Alkaloids of *Thalictrum isopyroides*. Ph.D. Thesis, Pittsburgh University, PA. 1986, p 115.

Patent

Davis R. U.S. Patent 5,708,591, 1998.

The author is responsible for the accuracy and completeness of all references.

All references must be numbered and written “superscript “without parentheses in the Manuscript (e.g....according to guidelines pertaining to these techniques^{5,6,7});but with parentheses around in the references list (e.g. (1) Alkhalil S. The Alkaloids of *Thalictrum isopyroides*. Ph.D. Thesis, Pittsburgh University, PA. 1986, p 115).

Nomenclature

It is the responsibility of the author(s) to provide correct nomenclature.

Insofar as possible, authors should use systematic names similar to those used by Chemical Abstracts Service.

Abbreviations

Standard abbreviations should be used throughout the manuscript. All nonstandard abbreviations should be kept to a minimum and must be defined in the text following their first use. The preferred forms of some of the more commonly used abbreviations are: mp, bp, °C, K, s, min, h, mL, . μ L, kg, g, mg, ng, μ g, cm, mm, nm, mnl, mmol, , μ mol, ppm, TLC, GC, HPLC, NMR, MS, UV, and IR.

Graphics

The quality of the illustrations printed depends on the quality of the originals provided. Figures cannot be modified or enhanced by the journal production staff. Whenever possible, the graphic files furnished by authors on CD with revised submissions of accepted manuscripts are used in production of the Journal.

A- Layout

In preparing structures for direct photoreproduction, layout is critical. Equations, schemes and blocks of structures are presented in the Journal either in one-column or two-column format.

B- Content

Abbreviations such as Me for CH₃, Et for C₂H₅ and Ph (but not Φ) for C₆H₅ are acceptable.

C- Dimensions

For best results, illustrations should be submitted in the actual size at which they should appear in the Journal. Only original work or high quality photographic prints of originals should be submitted; photocopies do not reproduce well.

Chemical Structures

Structures should be produced with the use of a drawing program such as Chem-Draw. Structure drawing preferences are as follows:

1- Drawing settings:

Chain angle 120°

Bond spacing 18% of width

Fixed length 14.4 pt (0.508 cm, 0.2 in.), Bold width 2.0 pt (0.071 cm, 0.0278 in.), Line width 0.6 pt (0.021 cm, 0.0084 in.), Margin width 1.6 pt (0.056 cm, 0.0222 in.), Hash spacing 2.5 pt (0.088 cm, 0.0347 in.)

2- Text settings:

Font: Arial/Helvetica

Size: 10 pt

3- Preference:

Units: points

Tolerance: 3 pixels

4- Page setup:

Paper: US Letter

Scale: 100%

Tables

These should be numbered consecutively with Arabic numerals and should be grouped at the end of the paper.

Footnotes in tables should be given lowercase letter designations and be cited in the table by italic superscript letter.

Figures

Figures should be constructed in keeping with the column width and line width. All illustrations should be numbered as "Figures", with Arabic numerals.

The Arabic numbers (not the roman ones or the alphabets) are used to number the Tables and Figures which are not abbreviated into Fig. or Tab.

Informed Consent

All manuscripts reporting the results of experimental investigation involving human subjects should include a statement confirming that an informed consent was obtained from each subject or subject's guardian, after the approval of the experimental protocol by a local human ethics committee or IRB.

Copyright Status Form

A properly completed Copyright Status Form with an original signature in ink must be provided for each submitted manuscript.

Manuscript Submission

Manuscripts (in English), together with a cover letter from the author responsible for all correspondence, should be submitted.. Authors should take care to provide a valid e-mail address when submitting manuscripts.

Manuscript submission via *e-mail*: (jjps@ju.edu.jo). However, manuscript can be submitted on line <http://journals.ju.edu.jo/JJPS/>

Galley Proofs

Page proofs will be sent to the author who submitted the paper. The standard delivery method for galley proofs is by mail. Reprints will be shipped within two weeks after the printed journal date. Corresponding authors will receive 50 free reprints.

Correspondence

Correspondence regarding accepted papers and proofs should be directed to Jordan Journal of Pharmaceutical Sciences.

INTRODUCTION

The Jordan Journal of Pharmaceutical Sciences (*JJPS*) is a peer-reviewed Journal, which publishes original research work that contributes significantly to further the scientific knowledge in Pharmaceutical Sciences Fields including pharmaceutical/medicinal chemistry and microbiology, biotechnology and industrial pharmacy, instrumental analysis, phytochemistry, clinical pharmacy and pharmaceutical care, and also JJPS is welcoming submissions in pharmaceutical business domain such as PharmacoEconomics, Pharmaceutical Marketing, and Management. The Journal publishes original research work either as a Full Research Paper or as a Short Communication. Review Articles on a current topic in Pharmaceutical Sciences are also considered for publication by the Journal. Now we are listed in C.A., Index Copernicus, Scopus...etc.

The Editorial Team wishes to thank their colleagues who have submitted the fruits of their labors to (*JJPS*). If you have any constructive criticism, please do not hesitate to contact us at jjps@ju.edu.jo. We hope that your comments will help us make the (*JJPS*) even better and appealing to all our readers.

Letter from the Editor-in-Chief

Two decades ago after the PhD , it was my great pleasure submitting one of my early articles to the Saudi Pharmaceutical Journal (ISI indexed) as the Editor-in-Chief –at that time- was one of my significant professors, being the top of my class, I had great expectations. Unfortunately, the paper was not accepted and so the first lesson learned: it is not only the quality of the research, but also the originality and of interest to the audience!

This is a call for all colleagues working in the pharmaceutical sciences fields to select Jordan Journal of pharmaceutical Sciences (JJPS) as a good choice for their publications. JJPS is a SCOPUS (Q3) indexed journal working hard forward being one of the Clarivate analytics (web of science) journals soon.

Going through the previous issues of the JJPS gives the reader a perception of purely chemical, technical, and pharmacological specialized submissions, in which the new editorial board encourages all researchers as well as post graduate students to submit their work in all pharmaceutical sciences' fields including pharmaceutical/medicinal chemistry and microbiology, biotechnology and industrial pharmacy, instrumental analysis, phytochemistry, clinical pharmacy and pharmaceutical care, and also JJPS is welcoming submissions in pharmaceutical business domain such as Pharmaco Economics, Pharmaceutical Marketing, and Management. Intellectual property rights for pharmaceuticals, regulations and legislations are also interesting topics welcomed from our colleagues in Schools of Law.

JJPS will have a new start this Jan 2020 in which the new editorial board agreed to publish four issues per year with up to ten articles per issue. Hence, researchers will be able to publish their work as fast as possible. Furthermore, there will be special issues for some well recognized local conferences and scientific gatherings in the field of pharmacy in order to encourage local scientists and their students.

Finally, it really is a great honor to be the new Editor-in-Chief for JJPS. We are keen on continuity of the distinguished work of my previous colleagues since 2006, ensuring the same quality of work where each submitted article will be reviewed blindly by **at least** 2 reviewers in order to have an objective decision in this regard, concentrating more on scheduling time for each review with no delay. One last point worth mentioning that this issue is the first with our electronic ISSN number; a step forward for a complete electronic process in the future.
