## Press Coverage of Cultural Affairs in Alrai and Addustour Newspapers

*Tahseen Mansour\* and Abdullah Abu Romman\*\**

### ABSTRACT

This study aims to identify the press coverage of cultural issues through the analysis of the content of supplements in two Jordanian newspapers (Alrai and Addustour). It also aims to find out differences between them in contents and statistical analysis. The study adopted the descriptive approach using the content analysis, which contained seven major categories with (34) sub-category. The study sample consisted of (24) issues from the two newspapers, randomly selected from 2009. The validity and reliability of the study were verified, using known scientific methods. The researchers used a number of statistical methods to analyze data such as frequencies, percentages and chi square test. The study showed some important results in cultural issues; one of the most notable results was the existence of stability in the volume of publishing in the cultural supplements in the newspapers and the using of different methods of treatment in addition to other results of interest in this regard

**Keywords:** Jordanian Press, Cultural Press, Press Coverage, Culture.
