The Attributes of the Servants of Allah in Surat Al-Furqan: A Rhetorical Study

*Nayel M. Abu Zaid**

ABSTRACT

This study tackles the attributes of the servants of Allah, as mentioned in the Holy Quran in Surat Al-Furqan, from a rhetorical perspective. The research explicates the beauty and intricacy of the Quranic statements that express those attributes. The Holy Quran starts praising these servants by reciting the positive attributes, following them with the negative attributes which should be avoided. Moreover, the research pinpoints the rhetorical veracity and eloquency at its supreme levels; a matter that helps to uncover and describe the rhetorical aspects of the Holy Quran.
