The Husband's Permit in Plastic (Cosmetic) Surgeries

*Shwaish Al-Mahameed**

ABSTRACT

A number of religious texts have ordered that plastic surgeries be prohibited regarding Muslim women.

However, some jurists limit this prohibition to single Muslim women but legalize such surgeries in the case of married Muslim women.

The present study handles different cases of such surgeries and distinguishes between cases allowed and cases prohibited by husbands. Evidences that support each case have been provided. The study concludes that the husband's permit is the primary factor behind a number of plastic surgeries. Furthermore, such surgeries have to be constrained so as to remain within the frames permitted by Islam.
