Education Characteristics and Rhetorical Marks of Al-Amthal in Holy Qur'an

*Sami A. Hasan **

ABSTRACT

Al-Mathal is rhetorical fluent style which expresses the self emotions sense latent and presents reasonable in facts sense image. It reveals facts of difficult understanding and shows the future instead of present. It is the most important rhetorical styles which convince the mind, and affect conscience. Thus, it takes its place in mind and remains in the memory without being subject to forget. So his Al-Mighty Allah mentions amthal in Holy Qur'an to exhibit the noble facts in its meanings, aims and splendid image by wording it in sense mould and bring it close to understanding in order to be and learn. The sense matters are clearly understood, while the mental matters are hidden and need explanation and statement. So the examples were indicated in a way that the self knows the meanings, gets acquaintance and showed it to the best way. Therefore, I introduce this research to get the light on the amthal in Qur'an and show its educational characteristics, objectives and Amthal Holy Quran rhetorical mark.

Keywords: Al Amthal, The Holy Qur'an.
